Friends of Poland - To-day we begin our 40th Sunday on the air. Let's listen to the program prepared for us by the Polish Information Center. And then we'll play the Polka music you enjoy so much.

And now a Polka - Majowy Czas - for the speedy recovery of Mrs. Antonina Krajewski, now at the City Hospital for observation - Maytime.

Last Sunday's program was devoted to the barbaric atrocities of the Nazis. Here are a couple more extracts culled from the N.Y. Times since last Sunday.

All Germans Are Indicted

Murders in 'Death Camps' Are Held to Involve Whole People

TO THE EDITOR OF THE NEW YORK TIMES:

If the seemingly incredible news which was telephoned by D. T. Brigham from Geneva and published in THE NEW YORK TIMES of July 3 is true—and it seems that it is true to its full extent—“And they cried with a loud voice, saying, ‘How long, O Lord, dost thou not judge and avenge our blood’”—then every human being on this earth who believes in God should raise his voice in a most emphatic protest.

These Nazi death camps will remain forever an indelible dark spot on the pages of history of the German people. To be fully understood, I do not mean the pages of a story of Nazi gangsterdom but the pages of history of the whole German people. *I am still quiet.*

World public opinion should ask all the German people if they too do spontaneously protest against these gruesome crimes which surpass any beastly acts ever committed in the dark barbarian ages.

If there should be a silence then we should know where we are. Until now the majority of the German people have shown their position by their silence—consequently, they are co-responsible for these crimes and will have to bear the full weight of the passed judgment.

To protest today is the plain duty of all people who believe. It is more; it is a question of the conscience of the whole world.

If millions of us human beings would unite in this outcry of detestation, then our common voice would be strong enough to reach every German ear; and they would then comprehend—all of them, not only their amoral leaders but the whole once-civilized nation.

KAREL HUDEC,

Consul General of Czechoslovakia.

GERMAN PEOPLE HELD GUILTY IN SLAUGHTER

Bracken Asks Share of Penalty for Them on Killing Jews

By Wireless to THE NEW YORK TIMES. LONDON, July 6—When the time comes to punish those responsible for the deportation and slaughter of Hungarian Jews, the German General Staff should be the first to be dealt with, Brendan Bracken, Minister of Information, said today.

Speaking in connection with the organization of a memorial for Brig. Frederick Herman Kisch, a Jew and chief engineer of the Eighth Army when he was killed in North Africa, Mr. Bracken said the Germans were setting up "abattoirs" in Europe, shepherding thousands of Jews into them and dispatching them with the brutal efficiency in which the Prussian delights.

"This is the biggest scandal in the history of human crime," said Mr. Bracken, "and the responsibility rests on the German people. They may later say, 'Oh, the wicked Nazis', but the German people have the responsibility and also the General Staff, who could have stopped it.

"What delights me so much today and would have given so much pleasure to Brigadier Kisch is that the Russian general who is most likely to take his troops first on to German soil is a very distinguished Jew."

Gen. Ivan D. Chernyakhovsky of the Third White Russian Army is believed to be the Russian commander closest to Germany, but it is not known here whether he is the general to whom Mr. Bracken referred.
