Friends of Poland - we welcome you to this half hour and hope that it will bring us closer together, by accquainting you with Poland - and the role Poland and her sons played in our fight for independence, - and the role Americans of Polish ancestry are still playing to make our Country the greatest on the face of God's earth. - July 4a

Friends of Poland - may I remind you that a week from to-morrow, we will commemorate the death of one who came to this country, of his own free will, to fight and die that our country might be free, that you and I might be free. The least we can do in grateful appreciation, is to know his name and the country to which we are indebted.

That country was the first to resist Nazi aggression and oppression. That country is now fighting for its freedom and its liberty. Now is the time for us Americans to recall our debt and to pay in kind if necessary.

Friends of Poland - a week from to-morrow, October the 11th, we will commemorate the heroic death of the Father of the American Cavalry, General Casimir Pulaski of Poland. He was wounded in the battle of Savannah October the 9th, 1779, and died on the ship "WASP" a significant name. General Pulaski died that you and I might live, that you and I might be free, that our country might be free.

General Pulaski, a POLE, organized the first American Cavalry, financing it this move with his personal funds to the extent of some 50,000 dollars.

In his memory, thousands of Americans of Polish ancestry, of Pulaski blood, will
