Niech bedzie pochwalony Jezus Chrystus.
Friends of Poland - To-day we present WINGED
POLAND. ~~Let's listen.~~ *An Interview with a
Member of the Polish Underground - Let's Listen.*

3
And now a POLKA - MAJOWY CZAS - MAYTIME.

Who has not heard of the illustrious international and cosmopolitan Polish pianist, Ignace Jan Paderewski - or Paderuski, as some pronounce his name - the supreme interpreter of Chopin. In case you do not know, permit me to add that even Chopin was Polish. His French name, of course, would be misleading. And since I mentioned Paderewski and Chopin, I should add Moniuszko, for these three men are Poland's monumental figures in the world of music.

But did you know - and now I address all music lovers - that the EARLIEST OPERA based on the Revolutionary War and woven around the life of the Father of the American Cavalry, Casimir Pulaski, was composed by a Pole, Edward Sobolewski. The name of the Opera? MOHEGA. So you see, even in the realm of music, the Poles have not failed America.

2
Speaking of music, reminds me - perhaps you never knew that Poland has her own traditional Christmas Carols. Did you ever hear them? No? Then, you have really missed something. However, the Choir of the Immaculate Conception Church, Kingston New York, will see to it, that you hear some of them during the coming Xmas holidays.

3
In the mean time, let's listen to a TANGO - TY BYLAS SNEM - YOU WERE MY DREAM - an imported recording.

4
This no doubt, will interest and surprise our Chinese friends as well as you. Did you know that the FIRST AMERICAN ENGLISH-CHINESE DICTIONARY was published in Boston in 1854 by STANISLAUS HERNISZ, who was interpreter for the American legation in China? So you see, not only the English speaking world, but the Chinese as well, are indebted to Poland and her many illustrious sons and daughters.

And now another POLKA - ALEXANDER.

Who has not heard of the distinguished scientist, MADAME CURIE, the discoverer of RADIUM? I wouldn't be surprised, however, if some did not know that she is Polish. Her name before she married a Frenchman, was MARIE SKLODOWSKA.

Marie Sklodowska Curie, a Pole, was the ONLY WOMAN that was ever made a professor at SARBONNE UNIVERSITY in Paris.

Twice she was awarded the NOBEL PRIZE in chemistry.

Her death was lamented by the whole world. The world now reaps the harvest of her many long years of mental sewing in the field of chemistry.

Yes, you heard of Mdamie Curie and know know that she is Polish. But did you know that one of OUR American famous pioneer physicians, was a woman, a Polish woman - MARIE E. ZAKRZEWSKI?

Niech zyje Polska - Long live Poland - for the many contributions, her noble sons and daughters have made to our country and to the world at large.

And now another TANGO - KOCHAJ MNIE JAK DAWNIEJ - LOVE ME AS OF YORE - an imported recording.

X - below.

* - W czasie Swiat Bozego Narodzenia, chor parafji NPNMP zaspiewa nam Polskie Kolendy. Prosze to rozglosic obconarodowcom, bo raz u-slysza nasze przepiekne Polskie kolendy, to je polubia. A przez to powstanie wieksza sympatja dla Polski i Polakow. Droga do serca, to muzyka, to spiew. Nie prawda?

X-May I take this occasion to congratulate the newly elected officers of the Children of Mary of the Immaculate Conception Church - Veronica Janeczek - President; Frances Witkowska Vice-President; Virginia Janeczek - Recording Sec'ty; Adria Jablonska - Financial Sec't'y - and Helen Melnik - Treasurer.

Through an oversight I omitted the name of Frances Kaczor, Recording Sec't'y of the Holy Rosary Society.

Next Sunday we will present, ^{and Sunday} THREE BOMBS.. And so DO WIDZENIA. God Bless you and yours and Bog Zaplac for listening.

Incidentally, only last night, I learned from LIFE magazine, that the movie of the week is MADAME CURIE, based on Eve Curie's best-selling biography of her remarkable mother.
